

## Introduction

### Current Menus

We have a range of menus to suit the post covid work place environment, whether that's office, warehouse, boardroom, training centre, special events, we can put a menu together for you, where ever you work.

#### Standard Menus

### Special Dietary Requirements

We cover most dietary requirements but the main ones are plated/boxed into separate meals for each individual. We cover Gluten Free/ Dairy Free / Nut Free / Vegan / Halal. All others are covered by special request at the time of ordering.

### Packaging

The standard menus are delivered in biodegradable card boxes and can be placed into the waste cardboard stream, generally at the customers site. For the executive menus, we use a sturdy black plastic platter that is also recyclable, but we generally would come back to collect these in the days after the delivery for either re-use or recycling at our site.

#### Delivery Times

All our vans are refrigerated and we aim to deliver 30 minutes prior to your requested delivery time. If you have enough fridge space we are happy to deliver earlier and sometimes drop off breakfasts and lunches together. We can also deliver in cool boxes.

#### Cool Boxes

We can deliver in cool boxes that keep the food cold for up to 6 hours. This also allows delivery to other locations where fridge space is not available. The cool boxes are recyclable and collapse to a flat pack so you can easily hold them until we collect.

#### How To Order

You can simply send us an email with the details typed out, please include all relevant details like, menu, date, delivery time, number of people to cater for, special dietary requirements and anything else you feel is relevant to the order. We will check through all the details and confirm the order with you. Lead time is generally 24 hours, same for cancellations.

#### Invoicing / Payment

We send out invoices at the end of each week and can add a PO should that be required. Most invoices have 30 days terms and we accept payment via credit card or bacs.

## Lunch Boxes- Individual

- Each person will have their own lunch box with all their items inside and only has to choose which box they will take.
- With this option there is slightly less choice as you only get to choose the box, not what's inside it.
- But it is better for social distancing as the boxes can be laid out with distance between them or even split up into different areas all together.
- You could even internally deliver them to each recipient in different locations in a building to avoid a gathering at one central pick up point.
- They come in 5 sizes and each size in meat, vegetarian, vegan, fish, gluten & dairy free, nut free, halal.
- Speciality boxes & custom boxes for special company occasions available, see last page.

## Grab & Go Lunch - Buffet

See last page for more speciality boxes & custom made boxes.

- The food is delivered in grouped boxes/platters that each person can choose their items from.
- All the food is internally wrapped within the boxes so once the box is opened, there is still no contact to the air.
- This option allows for greater choice for each person since they can choose anything so variety and quantity are better controlled.
- It is harder to achieve social distancing since everyone must gather at one central serving point but you could alleviate this with a staggered serving time.
- Take away aspect! Since all items are wrapped, people can easily choose their items and then put them in a bag to take away and eat elsewhere.
- Options to customise and tailor your perfect lunch menu.

## Executive Lunch - Buffet

- The food options and presentation on these menus is a higher grade than the standard offering and great for executive meetings, client visits and boardroom requirements.
- The food is presented on garnished platters with clear lids that each person can choose their items from.
- The food itself is not internally wrapped below the lids but the lids can be quickly replaced.
- This option allows for greater choice for each person since they can choose anything so variety and quantity are better controlled.
- It is harder to achieve social distancing since everyone must gather at one central serving point but you could alleviate this with a staggered serving time.
- There are 4 menus and each is available in meat, vegetarian, vegan, fish, gluten & dairy free, nut free, halal.
